EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1: Description of the Plan

General

- -----
The participants in the ExxonMobil Savings Plan ("Savings Plan"), formerly known as the Thrift Plan in the Benefit Plan of Exxon Corporation and Participating Affiliates ("Thrift Plan"), are eligible employees and former employees of Exxon Mobil Corporation ("ExxonMobil" or "Company") and certain affiliated employers. The terms and conditions of the Savings Plan are contained in the ExxonMobil Common Provisions document, the ExxonMobil Savings Plan document, and the ExxonMobil Savings Trust document (collectively, the "Plan Document"). The Savings Plan is an "employee pension benefit plan" described in Section 3(2) of the Employee Retirement Income Security Act of 1974 ("ERISA") and also a "defined contribution plan" described in Section 3(34) of ERISA. In addition, effective February 8, 2002, the entire Savings Plan has been designated an Employee Stock Ownership Plan ("ESOP"), a plan designed to invest primarily in employer securities.

As a result of the December 30, 1999 merger of the Thrift Plan and the Employee Savings Plan of Mobil Oil Corporation, ("the Merger"), on May 1, 2003, the ExxonMobil Savings Plan recordkeeping balances and the Merrill Lynch recordkeeping for the heritage Mobil balances were harmonized into one ExxonMobil Savings Plan recordkeeping system at CitiStreet LLC ("the harmonization"). With the harmonization, two new investment options, an international equity unit fund and a bond fund, were added to the existing ExxonMobil Savings Plan investment options. In addition, all Merrill Lynch-held investments with the exception of ExxonMobil common stock were converted to other existing and new ExxonMobil Savings Plan investment options.

Contributions

- -----
The Savings Plan permits participant contributions of up to 20% of compensation and a 100% Company match on the first 6% of compensation. Up to an additional 1% Company match may be received if the participant elects for the Company match to be directed to the Stock Match Account ("SMA"). The restriction on the SMA stipulates that 75% of the assets in the SMA must be invested in ExxonMobil stock. Employees who are at least age 50 during the plan year who maximize their before-tax contributions may elect to make additional pretax ("catch-up") contributions. More details of Company match, SMA, and catch-up contributions may be found in the Plan Document.

-6-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Vesting

- -----
Participants are immediately vested in their contributions and earnings. Company contributions vest at 100% upon the earliest of completion of 3 years of vesting service, reaching age 65 while employed, or upon death of the participating employee.

Forfeitures

- -----
During 2003, \$1 million of employers' matching contributions were forfeited

by terminating employees before those amounts became vested. Such forfeited amounts are used to reduce employer contributions.

Other Plan Provisions

Other Savings Plan provisions including eligibility, enrollment, participation, forfeiture, loans, withdrawals, distributions, and investment options, are described in the Plan Document.

Plan Termination

The Company may terminate or amend the Savings Plan at any time. In the event of termination, the net assets of the Savings Plan will be distributed in accordance with the Employee Retirement Income Security Act of 1974.

Note 2: Accounting Policies

Basis of Accounting

The financial statements of the Savings Plan are presented on the accrual basis of accounting except benefit payments which are reported on a cash basis to conform with generally accepted accounting principles (Note 7).

-7-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair values are based on quoted prices as of the date of the financial statements, or, if market quotations are not readily available, upon estimated values obtained from a major investment securities firm. The Common Asset Fund includes certain guaranteed investment contracts ("GICs") which are stated at contract value, which approximates fair value, representing the original cost, plus interest (based upon the crediting rates of the underlying contracts) reduced by administration fees, transfers out, and withdrawals. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average crediting interest rates of these GICs for the years ended December 31, 2003 and 2002 were 4.5% and 4.9%, respectively. The annualized crediting interest rates at December 31, 2003 and 2002 were 4.5% and 4.2%, respectively. Crediting rates fluctuate with the activities of the underlying contracts. There is no minimum crediting interest rate.

Under the terms of its trust agreement, the Savings Plan engaged in authorized security lending activities during the years ended December 31, 2003 and 2002. The market value of securities on loan and the collateral held at The Northern Trust Company at December 31, 2003 was \$241 million and \$247 million, respectively. The market value of securities on loan and the collateral held at The Northern Trust Company at December 31, 2002 was \$240 million and \$245 million, respectively. In accordance with the Securities Lending Agreement, the market value of the collateral held is required to be 100% of the market value of government securities lent and 102% for all other securities lent. Collateral held consists of cash, letters of credit, and government securities. At December 31, 2003 and 2002, the market value of all collateral held was at least 102%. The securities on loan are reflected in the Statement of Net Assets Available for Benefits and the Schedule of Assets (Held at End of Year) at December 31, 2003 and 2002.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

The Savings Plan's financial statements separately disclose non-participant directed investments which include both unallocated ExxonMobil common stock of the ESOP and a portion of the allocated shares. At December 31, 2003 and 2002, \$0 million and \$35 million respectively, of ExxonMobil common stock remained unallocated. As a result of the harmonization, the requirement that employer contributions in the heritage Mobil plan be allocated to the ESOP account was removed. Consequently, these allocated ESOP shares

have been reclassified from non-participant directed investments to participant directed investments.

-8-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Net appreciation and depreciation in the current value of investments includes realized gains and losses on investments sold or disposed of during the year and unrealized gains and losses on investments held at year end.

Participant loans represent the outstanding principal balances of the loans and are valued at cost, which approximates current value.

The Savings Plan is subject to normal risks associated with international and domestic debt and equity markets, including the investment in ExxonMobil common stock.

Transfers in include participant-initiated rollovers of certain distributions from other tax-qualified plans into the Savings Plan.

Use of Estimates - - - - -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3: Related-Party Transactions

During 2003 and 2002, commercial paper was issued by the Savings Plan and purchased by ExxonMobil. As a result of these transactions, at December 31, 2003 and 2002, \$0 million and \$82 million, respectively, were owed to ExxonMobil.

During 2003, certain Savings Plan investments were shares of various funds managed by Merrill Lynch Trust Company, FSB, Barclays Global Investors, N.A., and The Northern Trust Company. These parties also provided custodial and other fiduciary services to the Savings Plan during the plan year and, therefore, purchases and sales of these investments qualified as party-in-interest transactions.

-9-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4: Tax Status

The Internal Revenue Service has determined and informed the Savings Plan administrators by a letter dated November 14, 2002, that the Savings Plan is qualified and the trusts established under the Savings Plan are tax-exempt, under the appropriate sections of the Internal Revenue Code ("Code"). The Savings Plan has been amended since receiving the determination letter. However, counsel for Exxon Mobil Corporation believes that the Savings Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and therefore, was qualified and the related trust was tax-exempt as of the financial statement date.

Note 5: Expenses

Investment income from all sources is stated net of administrative expenses, which include brokerage fees on purchases and sales of ExxonMobil common stock, management fees, and brokerage commissions. Plan administration expenses, to the extent not paid by the Company, are charged to and paid from the Plan's assets. Administrative expenses are recorded when incurred.

Upon the Merger, future contributions to the ESOP were eligible for funding from the ESOP trust established in November 1989 by Mobil Oil Corporation ("Mobil"). In 1989, the ESOP trust, supported by a Mobil guarantee, privately placed \$800 million of floating interest rate notes due November 22, 2004, and used the proceeds to purchase 205,788 shares of Mobil Series B Convertible Preferred Stock at a price equal to liquidation value, or \$3,887.50 per share. Following the Merger, each outstanding share of Mobil Series B Convertible Preferred Stock was converted into one share of ExxonMobil Class B Preferred Stock, with similar terms. In December 1999, each unit of ExxonMobil's Class B Preferred Stock was converted into 132.015 shares of ExxonMobil common stock, and the accrued dividends on units of ExxonMobil Preferred Stock were converted into shares of ExxonMobil common stock.

-10-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

At December 31, 2003 and 2002, \$0 million and \$65 million, respectively, of medium-term notes were outstanding under a \$300 million shelf registration statement filed by the ESOP trust with the Securities and Exchange Commission pursuant to Rule 415. These medium-term notes were guaranteed by ExxonMobil and were secured by the unallocated ESOP shares. As shares in the ESOP were allocated to participants, a corresponding number of shares were released from securing the notes. The proceeds of the sales of the issued notes were used to retire identical principal amounts of existing ESOP trust debt.

At December 31, 2002, there were \$65 million in outstanding medium-term notes with 2003 maturity dates with interest rates ranging from 5.8% to 5.9%. By September 2003, all notes were paid off and there were no outstanding amounts due at December 31, 2003.

Principal and interest payments on the medium-term notes were due semi-annually.

On February 4, 1999, the ESOP trust established a commercial paper program under which the ESOP trust could sell to institutional investors including ExxonMobil or its affiliates, up to \$500 million of short-term notes. The proceeds of the sales of such notes were used for the same purposes as the proceeds of the debt securities issued by the ESOP trust under the above mentioned shelf registration. At December 31, 2002, the ESOP trust had \$82 million of ExxonMobil guaranteed 1.29% short-term notes outstanding, due February 28, 2003. During 2003, all short-term notes were paid off and there were no outstanding amounts due at December 31, 2003.

In addition to the proceeds from the financing programs mentioned above, corporate contributions to the Savings Plan and dividends were used to make principal and interest payments on the notes.

The Savings Plan held 227 million shares and 236 million shares of ExxonMobil common stock at year end 2003 and 2002, respectively. Of these total shares, 98.0 million shares were held in the ESOP trust (a part of the ExxonMobil Savings Trust) at December 31, 2002. Of the total ESOP trust shares, 1.0 million shares remained unallocated at December 31, 2002.

As the contributions and dividends were credited, common shares were released from securing the debt and were subsequently allocated to participant accounts. During the year, 1.0 million ESOP trust shares were allocated to participants.

-11-<page>
EXXONMOBIL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7: Claims Incurred But Not Paid

The Savings Plan reports benefits paid on a cash basis as required under accounting principles generally accepted in the United States of America. For Form 5500 reporting purposes, claims incurred but not paid of \$0 million and \$9 million for the years ended December 31, 2003 and 2002, respectively, are reported on an accrual basis. As such, the net assets available for benefits reflected for Form 5500 purposes are \$14,819 million and \$13,158 million at December 31, 2003 and 2002, respectively.

Note 8: Investments

The following presents investments that represent 5% or more of the Savings Plan's net assets available for benefits.

Note 9: Nonexempt Transactions

With respect to participants who are Puerto Rico residents, contributions for the months of April, May, and June 2003 (\$300,216) were not remitted to the ExxonMobil Savings Plan Trustee until August 2003. Esso Standard Oil Company (Puerto Rico) also remitted earnings on the late contributions (\$1,202) to the Trust in April 2004.

Note 10: Subsequent Event

On May 1, 2004, the five investment funds managed and held at Barclays Global Investors, N.A., were moved to The Northern Trust Company, who

will continue in the role of investment manager and custodian for these funds.

Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the ExxonMobil Savings Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the ExxonMobil Savings Plan (the "Savings Plan") at December 31, 2003 and 2002, and the changes in net assets available for benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Savings Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of nonexempt transactions are presented

for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Savings Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.
