## The global leader in carbon capture and storage (CCS)

ExxonMobil believes that achieving meaningful reductions in greenhouse gas emissions will require a wide range of solutions, and that CCS is one of the most vital technologies needed to mitigate the impacts of climate change.

According to the International Energy Agency (IEA) and Intergovernmental Panel on Climate Change (IPCC), CCS is one of the critical technologies required to achieve net-zero emissions and the climate goals outlined in the Paris Agreement.

With more than 30 years of experience developing and deploying CCS technologies, ExxonMobil is well positioned as the global leader in CCS.

### More than 30 years of CCS experience

More CO<sub>2</sub> captured than any other company

\*Global CCS Institute 2020 report and ExxonMobil analysis of 2020 facility data.  
\*Global CCS capacity. Global CCS Institute, Global Status of CCS 2020, page 14. ExxonMobil CCS capacity. ExxonMobil estimates.  
\*Comparison with 100,000,000,000 trees.

### Dedicated to deploying CCS at scale

Progressing broad portfolio of commercial opportunities, while fortifying to develop new technology solutions

### What is CCS

CCS is the process of capturing CO<sub>2</sub> that would otherwise be released into the atmosphere and injecting it into deep geologic formations for safe, secure and permanent storage.

It is one of the only technologies that could enable some industry sectors to decarbonize, including the refining, chemicals, cement and steel sectors.

#### Carboniferous Statement

Statements of future events, investment opportunities or conditions in this document are forward-looking statements. Actual future results, including project plans and timing, carbon capture results, future emissions reductions and the impact of operational and technology efforts may vary depending on the ability to secure operational licenses on a timely and successful basis, regional and local political changes in laws and regulations including those and regulations regarding greenhouse gas emissions and carbon costs, trade patterns and the development and enforcement of local, national and regional regulatory, enforcement, technical or operational difficulties, the outcome of research efforts and future technology developments, including the ability to scale projects and technologies on a commercially competitive basis, changes in supply and demand and other market forces affecting the availability of gas, and production or capacity, changes in the energy mix, the price of natural gas and other commodities, the actions of competitors, changes in regional and global economic growth rates and consumer preferences, the pace of regional and global recovery from the COVID-19 pandemic and actions taken by governments and consumers reacting to the pandemic, changes in government policy, regulatory developments or legislative actions and other factors beyond the control of ExxonMobil. The "forward-looking" information in this document is based on the information available to ExxonMobil as of the date of this document and is subject to change without notice. For more information, please visit the "Future Outlook" section of the ExxonMobil website at [www.exxonmobil.com](https://www.exxonmobil.com).

#### Important Additional Information Regarding Proxy Solicitation

Exxon Mobil Corporation ("ExxonMobil") intends to file a proxy statement and associated BLUE proxy card with the U.S. Securities and Exchange Commission (the "SEC") in connection with the solicitation of proxies for ExxonMobil's 2021 Annual Meeting (the "Proxy Statement"). ExxonMobil, its directors and certain of the executive officers will be participating in the solicitation of proxies from shareholders in support of the 2021 Annual Meeting information regarding the names of ExxonMobil's director and executive officers and their respective interests in ExxonMobil by security holdings or otherwise to set forth in ExxonMobil's Annual Report on Form 10-K for the fiscal year ended December 31, 2020. The proxy will be filed on February 26, 2021. ExxonMobil's proxy statement for the 2020 Annual Meeting of Shareholders, filed with the SEC on April 9, 2020 and ExxonMobil's Form 8-K filed with the SEC on December 1, 2020. To the extent changes to the proxy statement are required, it may be amended and filed with the SEC. Details concerning the business of ExxonMobil's Board of Directors for election at the 2021 Annual Meeting will be included in the Proxy Statement. BEHOLDERS OF EXHONMOBIL SECURITIES AND INVESTORS OF THE COMPANY ARE URGED TO READ ALL RELEVANT DOCUMENTS FILED WITH OR FURNISHED TO THE SEC, INCLUDING THE COMPANY'S DEFINITIVE PROXY STATEMENT AND ANY SUPPLEMENTARY STATEMENTS AND ACCOMPANYING BLUE PROXY CARDS WHEN THEY BECOME AVAILABLE, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. Investors and shareholders will be able to obtain copies of the definitive Proxy Statement and other relevant documents filed by ExxonMobil from the SEC's website, investor.gov. ExxonMobil shareholders will also be able to obtain, without charge, a copy of the definitive Proxy Statement and other relevant Proxy documents by clicking "request" by mail to ExxonMobil Shareholder Services at 1000 Los Colinos Boulevard, Irving, Texas 75039-2098 or at [shareholders@exxonmobil.com](mailto:shareholders@exxonmobil.com) or from the investor relations section of ExxonMobil's website, [www.exxonmobil.com/investor](https://www.exxonmobil.com/investor).
