Access ExxonMobil Shareholder Voting Ahead of Annual Meeting

Company strategy, People and culture, Global

April 17, 2023

In 2022, the hard work and commitment of our people drove exceptional results. While our results benefited from a favorable market, our work to meet demand began years ago, well before the pandemic. We chose to lean in when others leaned out.

As a result, we made strong progress against our strategic priorities, including delivering industry-leading financial results and shareholder returns. We also increased production to meet demand when people needed it the most, increased our refining throughput to record levels, and positioned the company to bring the largest refining capacity expansion in North America on line in more than a decade.

At this year's Annual Meeting, (held virtually) on **May 31 at 9:30 a.m. Central time**, we'll highlight this progress and share how we're working to be a valued partner of choice as we continue to innovate and provide solutions that meet the growing needs of society reliably and affordably.
