**Subject:** ExxonMobil publishes Shareholder Letter; encourages you to vote AGAINST Items 4-7

Hello Shareholder,

In advance of our Annual Meeting of Shareholders on May 29, we encourage **you to vote today**.

We published a new shareholder letter on our website that spells out the reasons why it's critical to **protect the value of your investment and vote AGAINST items 4 through 7**.

Item 6, for example, has now been proposed for three years in a row.

It seeks a report on plastic production to show financial impacts to our business based on a narrow, prescriptive, and increasingly outdated scenario.

**We have already demonstrated the resiliency of our business** and investment portfolio – including plastics – **under a scenario with a lower-demand profile**.

There are other examples of why you should **vote AGAINST this proposal** in the new Shareholder Letter, but to be clear, **our existing analysis and disclosures already cover a reduced-demand scenario** – yet another report on a similar scenario would not be meaningful.

You can also read our Board's recommendations (starting on page 79) in the 2024 Proxy.

If you have any questions, please reach out.
